# TrueGuide Academic

Fully Integrated & Centralized Academic Management System

## Background:

### ABOUT ANTHROPIC

Anthropic Technologies LLP, is a Bangalore/India-based software product and service company.

Our strong technology background enables us to create products and provide services that enhance the productivity and productiveness of companies across multiple sectors. The founders of Anthropic have worked with leading Global Companies such as Nokia, Alcatel-Lucent, Intel, Bell labs, GSlabs, Qlogic, Symantec, etc. We have the unique ability to deliver applications engineering solutions into technologies like Android, Blockchain, Web Dev, Java, and Database, including Cutting edge technologies 5G, NPUs, SDN, etc. All this is layered on our core expertise in core computing including cloud computing.

**Quick Tunes**  
A patented mobile profile management solution

**DopaNet**

A solution that leverages Wi-fi to deliver valuable information

**TrueGuide**  
An Academic Management System for educational institutions

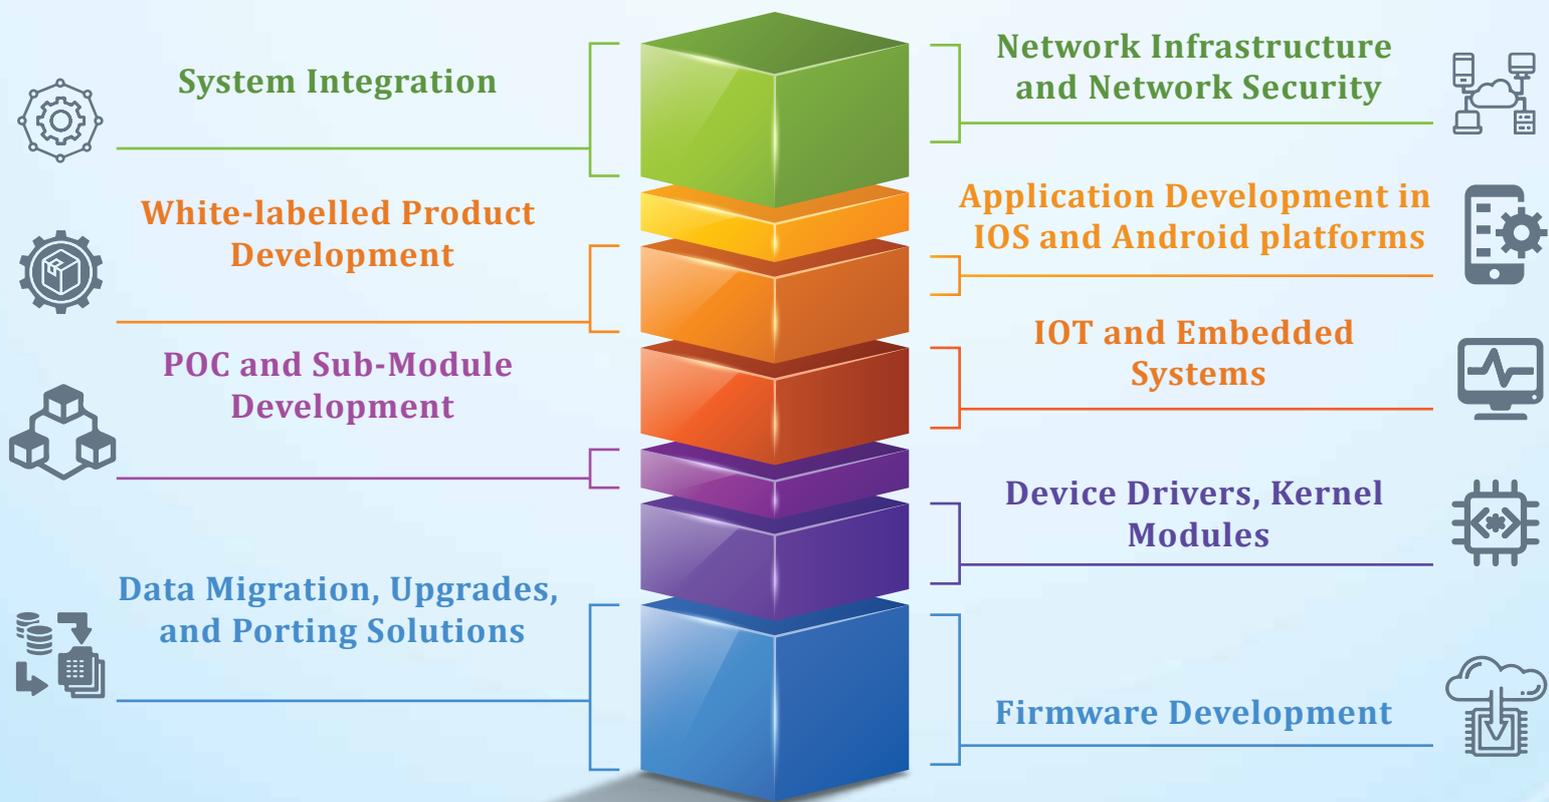

**Election Management System**

Election Operations Workflow Management

**Crusher**  
Crusher Management System

## Our Scope of Services Includes:

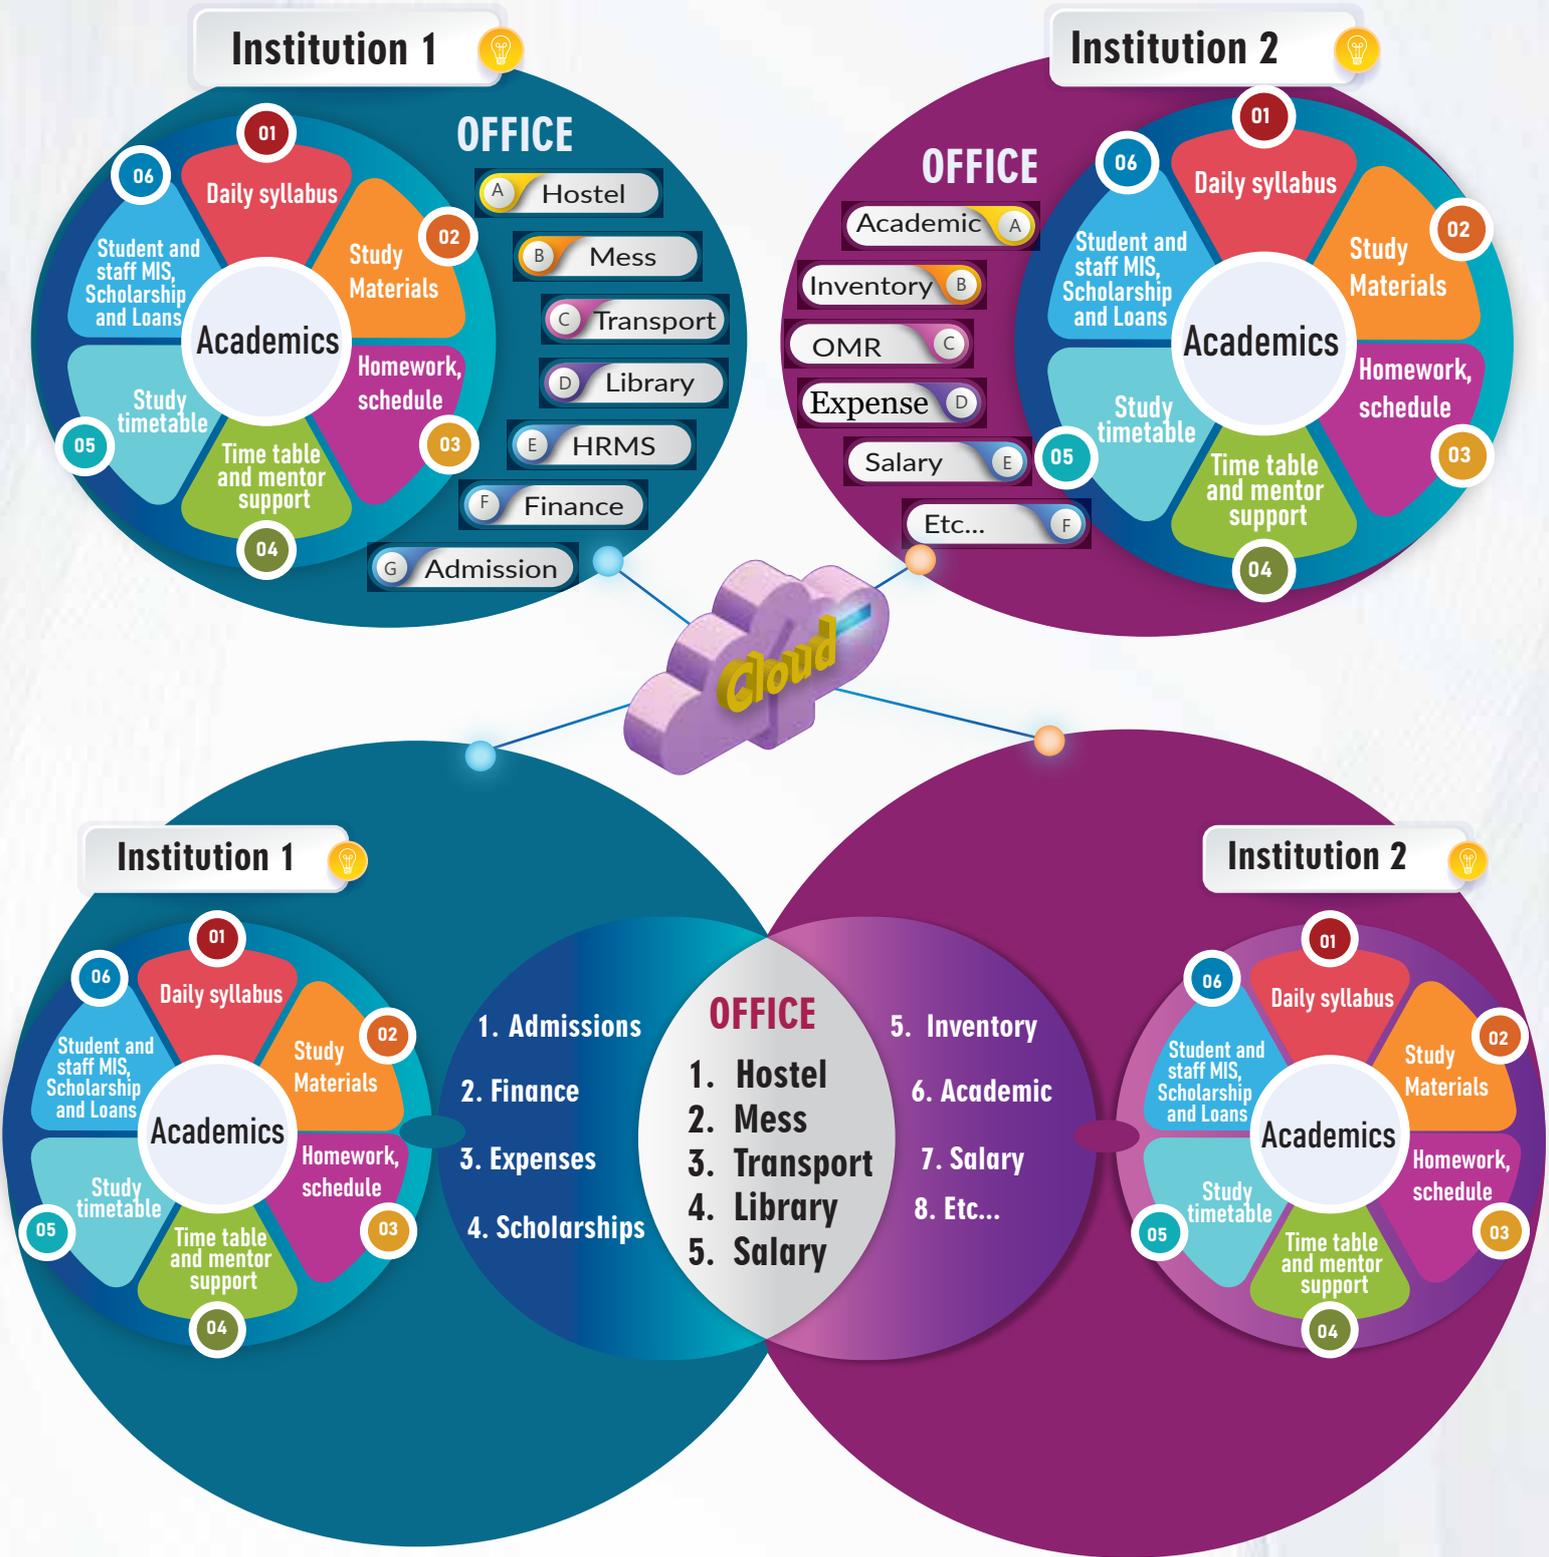

We have completed more than 10 years of experience in this space. We are proud of having more than 500 satisfied customers who have subscribed to our products and services. More than 10 awards that we have won are a testimony to the quality and innovation of our work.

# Concept:

TrueGuide is a software product in Edu-Tech space, used by institutions to automate and manage all academic, and administrative operations. TrueGuide can be the best suited to centralize groups of institutions/Bigger institutions with complex structures having multiple sub-units of different types of affiliated with different universities and different methods of operations, each institution with complex operating has modules like

# Differentiators:

TrueGuide is one of those few software in Edu-Tech space with strong differentiators from our few competitors, making TrueGuide with the potential to be a market leader has the potential of larger market capture they are listed below

## Fully Integrated Solution

TrueGuide provides all modules required for any big organization, we are highly customizable, and our RAD Framework accelerates our customization process to be absolutely agile. Many competitors ERP software, has few modules hence organization ends up taking multiple software solutions which are not compatible with each other, hence creating a partially automated system.

## Centralized Solution

- TrueGuide is architected such that, it can be configured to work with different kinds of institutions such as B.E./Degree/PU/CBSE /Medical/BHMS/Elementary/University, etc...
- Since TrueGuide is a fully integrated solution, providing all modules for each institute, centralizing a different kind of institution making it ideal for a very large complicated system, making execution smooth and fully centrally controlled.

## Fully Secure and Confidential System

- Our Technology choice includes back-end OS as Linux which is known for its security, and robustness.
- Most of the third-party software components we use are open-source which highly scalable, secure, and stable.
- Our Cloud-based system, has a thick client for dashboard, Our dashboard is not publicly accessible to all stakeholders.

## Flexible Deployment Models

We have the following deployment models suitable for any kind of institution.

- Common shared Cloud
- Private Cloud
- In-campus Server /Cloud.

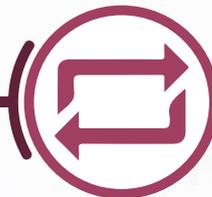

## Close Loop System

- Even though we are a centralized, cloud-based system but not publicly accessible, we use thick client technology for dashboard and native apps make our system extremely confidential

## Sub-Unit-Based Model

## Profile-Based Systems

## Automated Data Backups

## Generic Configurable Interfaces

- Most of our components are configured through databases configuration making the system highly generic.

## Admissions

Full admission management cycle from enquiries --> admission --> follow-ups --> fees --> fees recovery reminder full fledge MIS with comprehensive reporting for multiple batch and classification based on various fields

## Expense

A centralized expense management system connected to other modules like a hostel, transport, mess, library for a group of institutions to make it fully automated and error-free operation with one click reporting system, in The app, dashboard, and regular notifications through SMS for major expense entries.

## Hostel

Centralized hostel management system, which is connected to central ERP, with biometric, QR Code based attendance connected with finance module complete room allocation and deallocation management with expenses and other modules connected internally.

## Transport

The transport module covers the following features

1. EMI / Loan details
2. Route or bus management
3. Fee management
4. Vehicle tracking system and safety management

## WhatsApp Integration

## Finance

Flexible academic accounting system, providing a fully centralized and comprehensive finance module including income, expenses, taxation, and P&L finance module is integrated with different modules like admission, hostel, transport, mess, inventory, and salaries hence automatic segregation into different heads. making the entire financial management way to comfortable to clerks and admins.

## Library

Full fledge centralized library models, handling inwards, outward, stock, and records integrated with an app for student and bar code /QR Code for scanning, it is also integrated with the virtual library.

## Mess

Centralized module with feature like

1. Hostel allocation and fees management
2. Mess fees management & mess attendance management
3. Food chart management
4. Consumption forecast / Budgeting

## Payrolls and Leaves (HRMS)

1. Leave management
2. Payroll management
3. Biometric attendance integration
4. QR Code attendance integration
5. Increment or decrement

## Biometric Integration

Our Software is integrated with biometric attendance, where all login and logout punches are routed to a centralized system, connected with the leaves and salary system. This makes the biometric attendance process fully centralized controlled for even remote institutions

## Time table and Syllabus

A teacher can manage their time table, online classes, syllabus covered and material or class content through the teacher App, which is immediately available to students all reports of daily time table, syllabus coverage can be monitored through management App through a centralized system. Student attendance can also be managed/adjusted which is connected to central system. for complete automatic reporting.

## Document Management

Manage all kinds of documents categorized differently student documents

1. Property Documents
2. Circulars/Notifications from Govt
3. One can create documents of different categories keep it centrally accessible

## Results

Exam results made available to

1. Teachers in the App to analyses class wise and topic wise performance
2. Student and parent to understand student's exam wise growth, topic wise performance, questions failed
3. Graphical analysis
4. Institutional analysis to understand and analyses performance and remedies for
  5. 1. Above Average
  6. 2. Medium Range
  7. 3. Below Average Students

## QR Code Attendance

This is an alternative to biometric attendance, which is connected to the central system with leave and payroll integrated advantage of QR Code attendance is it work, as this work at places where Biometric devices don't have access to electricity or the internet/ with frequent failures. QR Code doesn't need Internet or power. Making it differently advantages over biometric device.

## Notifications

Notification are ways to getting connected with teachers, students and parents and other staff for information, emergency, or event. We support In-App notification which is fully free and SMS Notification both notifications are integrated with all modules of the system making every module fully practically usable. Like exam notification fees pending notification holiday notification meeting notification

## Examination Management

1. Online/offline exams
2. Performance charts
3. Post analysis
4. Detailed reports, Marks cards
5. Goal setting, Concept wise analysis
6. Class-wise or Institution wise reports
7. OMR Question Bank and Digital Library

## Certificate & Reports

Fully customizable formats for the importance documents like LC, TC, bonafide, character certificate etc.

# Modules

## Inventory & Stocks

Stock management

2. Dead stock management
3. Consumable / Non-Consumable
4. Centralized inventory of all institutions to find out total asset value or dead stock value
5. Location of each item
6. QR Coding for each item

## Digital Library

Provide complete access to pdf audio, video and library in a systematic and organized way.

## Online and Offline Exams

Any number of online examination time bounded and noontime bound can be conducted, for a particular subject and across the subjects with analyses for competitive examination.

## Outcome-Based Education OBE

- Future-ready curriculum design
- Smooth curriculum delivery
- Flexible Assessment Models
- Measurable Learning outcomes in real-time
- Unified Online Assessments with OBE

## Recruitment Management

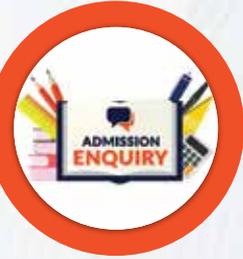

## Question Bank Management

1. Can create many question papers using App/Dashboard
2. More than 10,000 Questions are classified into different topic and subtopics
3. Can mark questions as per bloom's taxonomy
4. Can mark questions based on complexity
5. Can mark questions for topic and subtopic

## Examination Analytics

- Provides various reports of exam analytics like
  - a) Subject wise
  - b) Student wise
  - c) Faculty wise

**27** Sports management

**28** NBA accreditations

- 29** New education policy
- 30** NCC, Red cross
- 31** Alumni management and donations
- 32** Build strong job network

# TESTIMONIAL

## **Administrator, Bharatesh group of institutions - (Anuradha Tigadi)**

The software can help us create consolidated reports when we have a group of institutions. These reports will help the management in areas like the number of students database, fees collection analysis, details of staff, student performance, staff performance, inventory, transport details, etc. The software is user-friendly and can be used by students, staff, and parents also.

## **Maruti vidya kendra (Tumkur) (Varun Muralidhar)**

After using our own customized ERP for many years, we were somehow not satisfied & were searching for software that meets our expectations & provides us with a centralized system for school digitalization.

## **Spoco sports school chandargi (S.M. Kaluti)**

TrueGuide relieves our staff from the heaps of effort & work they have to put into managing all the activities manually. It also helps our parents to pay fees at their convenience with online payment gateway & be in touch with the school always with TrueGuide mobile application. We are looking forward to a long, fruitful & satisfying journey/ association with TrueGuide.

## **Swami vivekananda kannada medium sankeshwar (Naveen)**

Regardless of price & features, what a school will require the most is support & TrueGuide provides us with that no doubt, TrueGuide is an excellent choice for our organization.

## **RD institute-CTE society (chikkodi) (Mithun Deshpande)**

We were since long looking for a solution that helps us to go paperless & cashless at the same time & reduces our manual workload. TrueGuide provides us with a full-fledged package to manage to start from our admission management, attendance, assessment, library, HR & payroll is required to run the day-to-day activities of our school efficiently. TrueGuide is one of the best decisions taken by us in our school automation process.

## **Shantiniketan public school kanapur (Mrs.Swatikamal D Walve)**

We are very pleased with the support, training, communication, and quick responsiveness.

# TESTIMONIAL

## **Rais institute Mumbai (Mr. Sibtain Kashelkar)**

We have been using the TrueGuide software for over six years and have been very happy with the product, the training, and the support system. Two years ago, we also purchased online TrueGuide and biometric software. We highly recommend the software to other schools.

## **Sana institute Hubballi (Esmayeel Ashraf)**

I am pleased to say that we have been using the TrueGuide software for more than a year and would highly appreciate the way the services are being rendered to our satisfaction. We earnestly wish them the very best for a great future.

## **Touheed institute Hubballi (Shoaib)**

It is a pleasure to work with your company. Almost 90% of my administrative tasks are managed with TrueGuide. Simply, it's a great program. We're very satisfied with the service, support, and regular trendy updates.

## **Jyoti PU and degree college Belagavi (Vikram Patil)**

We are highly satisfied with your services we are glad to state that since we have started using TrueGuide it has become very easy for us to perform many tasks. All my campuses' information is at my fingertips. TrueGuide mobile application is very friendly.

## **Maratha mandal group of institution Belagavi (Pramod Jadav)**

TrueGuide is very easy to use & user-friendly software for teachers and administration departments. It has simplified our tasks to a great extent and we would certainly recommend TrueGuide school management software for schools, which would like to make their school administrative tasks much easy & manageable.

## **Shriyash education training academy Miraj (Vittal Adake)**

The best thing i liked about this software is that it has all the safeguards required to protect students information. Besides this, it maintains confidentiality and integrity of data.

# TESTIMONIAL

## **MLBP (BMB Patil) - Bhartesh group, Diploma Belagavi**

Our problems were promptly solved by TrueGuide team. We thank you for all the support and help extended to us. We appreciate the commitment and support extended by TrueGuide team toward getting everything to run smoothly.

## **CBSE (Devyani Desai) Bhartesh group Belagavi**

TrueGuide is a complete school ERP with all integrated functionality in one software. We would recommend TrueGuide to any school who are looking for a technically advanced solution with great depth domain knowledge.

## **SDVS (Principal Mrs yargatti) - PU institute Sankeshwar**

TrueGuide is very efficient, systematic, sophisticated yet user-friendly school management software. As a leading educational trust in the city, we tried so many school management softwares but no one had 100% fulfilled our requirements.

## **Homeopathy (Shrikant konkani) Bhartesh group Belagavi**

We've been using the TrueGuide software for two years now. As software professional experience, TrueGuide is a very complete and user-friendly software.

## **Baratesh group of institutions BBA Belagavi (Prashant Kamble)**

TrueGuide ERP software provided the best customer support, making sure all our concerns were addressed. We recommend TrueGuide software to all educational institutions.

## **Baratesh Group of institutions BCA Belagavi (Dr. Mahesh J Mardolkar)**

The support system is superb. I especially like the different ways that i can receive various report formats.
